PERSONAL SUMMARY

I am **Nixon, an Electronics and Communication Engineering graduate from Sri Siva Subramaniya Nadar College of Engineering**, with hands-on experience in software development and full-stack technologies. During my internship as a Software Developer, I worked on developing web applications using ASP.NET and C#, collaborating with cross-functional teams to deliver responsive and user-friendly solutions with Software development cycle understanding.

EXPERIENCE

Software Developer Intern at Wise Work, December 2024- July 2025

- Developed web applications using ASP.NET and C# collaborating with designers for responsive layout across devices and user friendly interface.
- Utilized AI to develop innovative product-specific solutions.

SKILLS

- **Programming & Scripting** -- Python, .NET, C++, SQL,Linux
- **Web Development –** .NET Frameworks,React,Node.js,HTML,CSS
- **Software Practices** -- SDLC Basics,Debugging,Docker,Kubernetes
- **Machine Learning** -- Predictive Modeling, Computer Vision, Data Analysis.
- **Other technical skills** -- VLSI,IoT,Embedded systems

PROJECTS

Robust rood lane detection in challenging conditions

Designed a CV & ML-based system using geometric constraints and real-time optimization, achieving stable performance under glare, shadows, and low visibility.

Smart Collaboration Platform

Built a full-stack platform with real-time chat, kanban boards, and file sharing using React, Node.js, PostgreSQL and deployed with Docker & Kubernetes, enabling collaboration.

Web Application using .NET Framework

Developed an ASP.NET web app with role-based authentication, authorization, and session management, integrating third-party APIs for notifications and database-backed user profiles, ensuring data integrity and compliance with best practices.

Predictive Churn Analysis using ML

Implemented customer churn prediction models using Python, Pandas, and Scikit-learn. Deployed dashboards with data for business stakeholders to visualize churn risk and take preventive actions.

EDUCATION

B.E.Electronics & Communication Engineering- Sri Siva Subramaniya Nadar Collage of Engineering (SSN), Tamil Nadu India May 2025

12TH- Mount Zion Matriculation Higher Secondary School, Pudukkottai.

CERTIFICATIONS

NPTEL CERTIFICATIONS - Responsible and safe AI Industrial IOT 4.0

Microsoft Certification - Foundational C# certification

ACHIEVEMENTS

Received special mention at the IBM Z datathon for development of a churn detection model.
Received innovation and Go-Green award for an ML based exhaust gas monitoring system in IKAR contest.
State level Table tennis player.

LEADERSHIP

Volunteered with **EFI India** for 7+ months, contributing to community-driven environmental projects. Provided technical insights as an Electronics team lead and achieved the expected outcome within the duration.
